SUMMER HOLIDAYS

September 2019

Monday 2nd

September

Dear Grange families,

We have had another exciting week here at Grange. Today we were fund raising for Comic Relief. Many children and staff wore red in order to raise money. We had a whole school assembly in the Albert McKenzie hall to learn all about where our donations go and who benefits from them. We have also had our science week, which meant many experiments were happening across the school.

We are extremely happy to introduce the new members of the Grange family—our chicks. We watched them hatch this week.

Best wishes from the Grange Team.

Star

Star Class visited the Old Kent Road Fire Station. We met the brave firefighters who help our community. They showed us around their workplace and the children were fortunate enough to climb into a fire engine, try on the firefighters' helmets, squirt water from the fire hose and watch the firefighters sliding down their pole. The children loved their visit. "This is so much fun!" said Ricco, who learned so much about fire safety. "I'm going to be a fire fighter!" said Hasanat . Thank you to the fire fighters for letting us having a look around and for giving their time to help our children with their learning.

Mercury

In Mercury Class we have been using laptops to help us research our RE lesson. We have been learning to use a laptop to type in a website address. We wrote our research down and shared it with the class.

Mars

It is Science Week! Mars class have been excited about all the Egg experiments that we have been doing this week. Our first experiments question was How many books can we balance on 4 eggs before they break? We all had a go at placing a book onto the eggs and the 4 eggs managed to hold 20 books before they broke. We have also been observing the chicks that are in school. We have written information booklets about them.

Jupiter

This week in science we thought of different ways to use magnetic properties. The children already knew how a magnet works and the task was to create games based on the magnet's properties. Based on the magnetic field and the magnetic force, the children worked in pairs and designed games by using everyday materials. They combined familiar games with the different types of magnets and at the end of the lesson they presented their games to the class.

Upcoming Events

Monday 18th March

Chess Club Y3-4

Football Team Club

Y5-6

Tuesday 19th March

Football Club Y1,2 &3

Wednesday 20th March

Music Club

Y3, 4 & 5

Thursday 21st March

KS2 General Sports

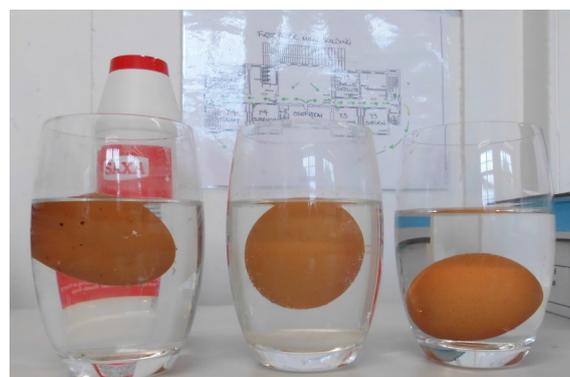

Y3,4,5&6

All clubs will finish at

4.30pm

Supernova

Supernova Class enjoyed a trip to the Unicorn theatre to watch the play ICARUS. They were able to experience all the theatre effects and the live actors. This week the children have been enjoying science week, doing experiments with eggs! They discovered that adding salt to water makes the eggs float !

Neptune

As part of Science Week, Neptune Class carried out an investigation into which materials would best protect an egg from a drop. We wrapped up hard-boiled eggs in a range of different materials and dropped them from a height of 1 metre. We then unwrapped the eggs to compare which eggs were the most and least cracked!

Aurora

Aurora class have been challenging themselves with tricky maths questions. They have been working independently and collaboratively ensuring they can explain their reasoning. As part of their WW2 topic, they have been writing a persuasive letter to parents urging them to allow their child to be evacuated.

ATTENDANCE & PUNCTUALITY

School Year 2018-19		%
Attendance	Whole School	94%
Key Stage 1 Winner	Mercury	98%
Key Stage 2 Winner	Sky	99%
Punctuality	Whole School	98%
Key Stage 1 winner	Mercury	100%
Key Stage 2 winner	Sky	99%
