May

Half Term

Monday 27th May—
Friday 31st May

Dear Grange families,

Well done to all of you who have given up fizzy drinks for Fizz Free February. The children are enjoying the challenge and are able to discuss healthier options they can have when they are thirsty.

We also looked at 'reputation'. We explored the reputation we want the school to have and the reputation we want to have as individuals. We discussed how reputations are made and how they can be changed.

In addition to this, we focused on Internet safety this week and all classes learned how to ensure they are able to use the internet safely.

Best wishes from the Grange Team.

Play Leader Academy

Some of our children have been selected to attend a play leader academy. These children are learning to design games to help all the children in the playground to keep active and fit. These pupils are learning to develop their leadership skills. We are very proud to see these future leaders taking on a responsible role within the school.

Star

The children of Star Class have been playing the game "What's the Time, Mr Wolf?" They love pretending to be the big, bad wolf or getting the chance to creep up on him and chase him! This is a good way for young children to practise counting in order and it even introduces them to the concept of time. These children even made puppets to go along with their game.

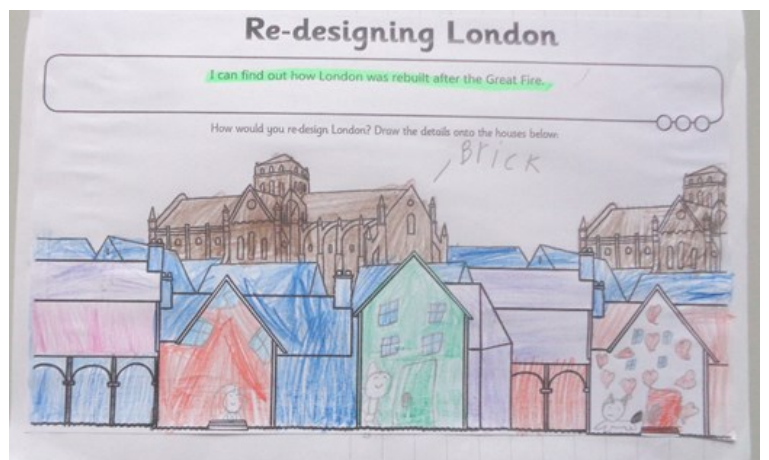

Mercury

In guided reading children read with an adult. They sound words out and also try to understand what they read. Adults ask questions such as: Who is running? Where are they going? Why are they happy? Children find and retrieve answers from the text.

Mars

In Mars Class we are continuing our work on the Great Fire of London. We have written a diary entry in role as one of the Londoners fighting the fire. We expressed how we were feeling while working hard to stop the fire and included facts about the process taken. We have now written our diary entry up in neat it looks very good. During our Art session we redesigned London and took time to include details on each building. A lot of us chose to use bright colours for our builds to make London more colourful.

Jupiter

Learning how to tell the time on an analogue clock is not as easy as we thought. But, with appropriate resources we made it easier! This week the children worked on a paper analogue clock they made; around the clock there were the different key-phrases that helped the children understand how the minute hand and the hour hand work together. After they finished making the paper clock, we used it to practice with our partners in fun games to tell the time. The paper clock was very useful in the following maths lessons as well.

It was fun and challenging to tell the time with what the children made!

Upcoming Events

Monday 11th February

Chess Club Y3-4

Football Team Club

Y5-6

Tuesday 12th February

Football Club Y1,2 &3

Wednesday 13th February

Music Club

Y3, 4 & 5

Thursday 14th February

KS2 General Sports

Y3,4,5&6

Friday 15th February

Netball Team Club

Y5-6

All clubs will finish at

4.30pm

Supernova

This half term Supernova Class has been studying Animals including Humans in Science. They have been learning about the digestive system and over the last two weeks they have been learning about teeth. We decided to do an investigation into tooth decay by observing what happens to hard boiled eggs in five liquids, orange juice, apple, juice, cola, milk and water over five days. They are excited to see what is happening and recording their observations.

Neptune

In Neptune Class this week, we learned about the Buddhist festival of Wesak. We found out about different ways that Buddhists celebrate in different countries, and made some Wesak lanterns.

Aurora

Last week Aurora Class took part in the Into University program. During the week, the class learned about three key figures who were involved in the war. They were Anne Frank, Winston Churchill and Billy Strachan.

We finished the week with our trip to Cambridge University and had a look round Christ College.

ATTENDANCE & PUNCTUALITY

School Year 2018-19		%
Attendance	Whole School	95.5%
Key Stage 1 Winner	Mars	99.1%
Key Stage 2 Winner	Jupiter	98.6%
Punctuality	Whole School	97%
Key Stage 1 winner	Planet Earth	98%
Key Stage 2 winner	Aurora	99%
