

## Worksheet

# Improper Fractions

### Task1

Write down the proper fraction and mixed fractions represented by the shapes below.

Improper fraction	Shapes	Mixed fraction
$5/2$		
$12/4$		
$11/5$		
$11/3$		

### Task 2

Convert the following improper fractions into whole, or mixed numbers: Remember: First, you put the denominator outside the bus stop. Next, you put the

numerator inside the bus stop. How many groups can be made? What is remainder? Finally, put the remainder over the denominator ( the denominator, which is the total, never changes).

1.  $13/6 =$

2.  $27/5 =$

3.  $28/5 =$

4.  $23/7 =$
