

# Grange Primary School Weekly Bulletin Friday 25th June 2021

## Quote for the week:

*'To be yourself in a world that is constantly trying to make you something else is the greatest accomplishment.'* Ralph Waldo Emerson

Dear Grange families,

### What is Diabetes?

1 in 11 people are living with diabetes right now. Even some of the healthiest people are diabetic. Diabetes is a disease in which the pancreas is no longer able to make insulin (Type 1 Diabetes), or the body cannot live off the insulin that it does create (Type 2 Diabetes). Insulin, the hormone made by the pancreas, helps the glucose in your blood to be used for energy. Thus, diabetes is a disease in which your blood glucose level (or blood sugar level) is higher than it should be.

### Diabetes UK One million step challenge

Miss Lisa Burnett has signed up to do the 1 Million Steps for Diabetes, that takes place from the 1<sup>st</sup> July to 30<sup>th</sup> September 2021. Lisa has set this challenge for herself in her role as class teacher, and working with pupils in our school who have Type 1 Diabetes.

Miss Burnett has set her target to be £180. If you would like to sponsor Miss Burnett, please click on the hyperlink below:

# NURSERY

## Sun Class

Children in Sun class listened to the story entitled: "*Stanley's Stick*" by John Hegley. Inspired by the story, children have used their own imagination and decided what their stick was going to be. Then they had fun decorating them. In Art we are still continuing painting our salt dough 'fossils' of dinosaur foot prints that children made last week. In Phonics children are learning alliteration that 'Stanley's Stick.' story is full of. We are also learning the following sounds: b, h, f, j and v. In Mathematics children are learning to order numbers to 10, we are looking at the numbers and what happens to them when we add 'one more' or take one away from a larger group of items. We are also learning about patterns. Children who are going up to Reception in September are excited to visit their new Reception this Thursday afternoon.

# Year 3

## Jupiter & Saturn Class

Year 3 have been learning about the life cycle of a plant in Science.

The children got to plant their choice of seeds, and watch their plants grow in our classroom.

The children also take turns being responsible for watering the plants in the classroom, and in the playground.
