Opening internal doors can also assist with creating a throughput of air</li> <li>• natural ventilation – if necessary external opening doors may also be used (as long as they are not fire doors and where safe to do so).</li> </ul> <p>To balance the need for increased ventilation while maintaining a comfortable temperature, consider:</p>

## Outbreak Management Plan

Outbreak Management Plan (OMP) outlines how the school would operate if additional measures are recommended for your setting or the local area. The Director of Public Health, Public Health England Health Protection Teams or the Local Authority could recommend certain measures are re-introduced. This may happen to help manage outbreaks in schools, or if there is an “extremely high prevalence” of Covid-19 in the community and other measures have failed to reduce transmission, or as part of a package of measures “responding to a variant of concern”.

**N.B- THE FOLLOWING CONTROL MEASURES DO NOT NEED TO BE PUT INTO PLACE UNLESS RECOMMENDED BY THE DIRECTOR OF PUBLIC HEALTH, PHE HEALTH PROTECTION TEAMS OR THE LOCAL AUTHORITY.**
