

Spring 1 Homework

Dear Children and Adults,

Happy New Year! We have had a brilliant start to the new year and the children have been creating postcards for their holiday news, creating number patterns and thinking of their own new years resolutions. Below we have suggested activities that link to the work we will be completing in school this half term. There are some ideas for children to develop their understanding of our different topics. The tasks can be completed by the children on their own or with an adult. Thank you in advance for all of your support.

DATES

Date set:

WB: 9th January 2023

Date Due:

WB: 6th February 2023

MATHS and READING

Weekly tasks are set on Mathletics and Reading Eggs. Please make sure you log in to complete tasks set. Certificates will be awarded during celebration assembly. If you are experiencing any problems on Mathletics or Reading Eggs please do let us know ASAP, so we can sort this for you.

Maths: Topics we will be working on in Maths in Year 1 include Place Value within 20 and Addition and Subtraction within 20. Have a go at practicing your numbers. Year 2 will be working on multiplication and division and money.

Reading: Please also remember to read for at least 10 minutes each day and get an adult to sign your reading record book.

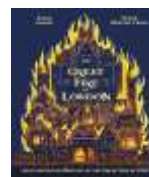

You have this scrap book to use to complete your homework project. Over the next six weeks complete some of these activities or make some up of your own.

Reading and Writing

Year 1 will be using Lost and Found to support their writing sessions. Can you research and find out some information about the penguins.

Year 2 will continue their work on The Great Fire of London and use their knowledge from Topic to create some non-fiction writing. Try and create a timeline of the events that took place during the Great Fire of London.

Can you create a fact book on the Great Fire of London and research some new information.

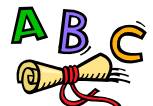

Science and Art

Our next science unit is Living things and their Habitats. Can you select an animal and create a shoe box home for them. You may need to carry out some research to find out where they live.

SPELLINGS

Year 1, practise the spelling of your high frequency words. Please continue to practice the spellings for Year 2. In Year 2 we also need to practice key vocabulary for science and topic. Have a go at using your sounds to spell unknown words.

CHALLENGE: Life Cycle Craft

Have a go at creating a polar animal using recycled items from home. Here are some examples.
