Technical Knowledge

Running Stitch

A simple line of straight **stitches** with the needle going up through a hole, down through the next and continuing. It's a bit like the Loch Ness monster coming up and down out of the water!

Overstitch

This is where the needle comes up through the fabric and then wraps over the edge before coming back up for another **stitch**.

Key Vocabulary

Collage	A piece of art made by <u>sticking</u> various different materials such as photographs and pieces of paper or fabric on to a backing.
Score	a notch or line cut or <u>scratched</u> into a surface.
Texture	The feel, appearance, or consistency of a surface or substance.
Applique	Needlework in which pieces of fabric are <u>sewn</u> or stuck on to a larger piece to form a picture or pattern.
Template	A shaped piece of rigid material used as a pattern for processes such as cutting out, shaping, or drilling.
Under stitch	A line of stitches that are sewn close to the edge of a facing to keep it from rolling toward the outside

Key Knowledge

3D Form

What is clay?	Clay is a fine-grained mineral made when rocks break down. Wet clay is soft and can be shaped to make pottery, bricks and other things. When it is shaped and then fired in a kiln to make it hard, it becomes pottery
How can I create pattern and texture?	It is easy to create different textures and patterns by carving into blocks of Clay that have had some time to dry a little. Using Clay Tools, it is possible to carve simple designs that are informed by shapes or patterns observed in nature, or from other cultures; such as the Ancient Greeks, or geometric African patterns

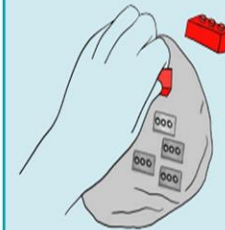

Roll a ball of clay

Roll a clay sausage shape

Press objects into the clay surface to make patterns

Make changes when working in clay
