

5 words to remember

Google: dominant provider of internet searches, and additional services such as Google Docs and Gmail

mind map: a picture that shows your thoughts and ideas, which helps you see how everything is related and fits together

presentation: typically a sequence of slides showing text and images accompanied by a spoken commentary

SafeSearch: protects us when we search for pictures or information online – it helps us find things that are safe and friendly

search engine: when you want to find something, you use a search engine and it shows you a list of websites that might have what you're looking for

Key takeaways

In this unit, you will explore the internet to learn exciting stuff and share it with others. You will use different tools to help you.

- ❑ You will pick a topic and make a picture with questions using a tool like Popplet.
- ❑ You will find answers on the internet using a **SafeSearch** tool.
- ❑ You will learn about being safe online and use special **search engines** like **Google SafeSearch**.
- ❑ You will use what you find to make a quick 2 minute talk about a topic.
- ❑ Finally, you will share the talk with friends and remember the important rules for being safe online.

Knowledge check: Adding text
