

Spring 1 Homework

Dear Children and Adults,

Happy New Year! We have had a brilliant start to the new year and the children have been creating postcards for their holiday news, creating number patterns and thinking of their own new years resolutions. Below we have suggested activities that link to the work we will be completing in school this half term. There are some ideas for children to develop their understanding of our different topics. The tasks can be completed by the children on their own or with an adult. Thank you in advance for all of your support.

Year 1 Classes:
Mercury & Venus

Date set:
 WB: 6th January 2025

Date Due:
 WB: 10th February 2024

MATHS and READING

Weekly tasks are set on Mathletics and Reading Eggs. Please make sure you log in to complete tasks set. Certificates will be awarded during celebration assembly. If you are experiencing any problems on Mathletics or Reading Eggs please do let us know ASAP, so we can sort this for you.

Maths: Topics we will be working on in Maths in Year 1 include Place Value within 20 and Addition and Subtraction within 20. Have a go at practicing your numbers.

Reading: Please also remember to read for at least 10 minutes each day and get an adult to sign your reading record book. Remember your rewards!

You have this scrap book to use to complete your homework project. Over the next six weeks complete some of these activities or make some up of your own.

Reading and Writing

Year 1 will be using Lost and Found to support their writing sessions. Can you research and find out some information about penguins?

Science and Art

Our next Science we will be focusing on two units this half term; Seasonal Changes—Winter and Animals including Humans. During our Winter unit, we will be looking at how the weather changes and animals in winter. Can you research about winter and your favourite part about winter?

Our Art unit is Polar Regions focusing on an artist called Ted Harrison. Could you research some of his art and draw one his famous art pieces? This does not need to be done in your book, but use your imagination!

Topic

Our Topic unit is based on Polar Regions where we will be exploring continents, life and animals. What interesting facts could you find about the Polar Regions? Could you draw a map of the world and label it?

SPELLINGS

Year 1, practise the spelling of your high frequency words. Please continue to practise your high frequency words at home.

CHALLENGE: Animal Crafts

Have a go at creating a polar animal using recycled items from home. Here are some examples.
